Hedley Paul is the foremost celebrant on Ibiza.

Born in Cornwall, and having a Celtic heritage that dates back to pre-Christian times he has a strong natural empathy with, and is 'in touch' with the subtle energy and spirituality of Ibiza.

He is currently in a very busy 'retirement', having spent a lifetime teaching and lecturing adults across an incredibly diverse range of subjects.

He loves delivering, spiritual religious and humanist ceremonies to couples, and seeing the change that it can bring about in them.

His comment.... "If I see tears, I know I'm reaching their hearts" may seem a little odd, but the tears are always of joy and happiness.

He is thoroughly professional in his approach to, and delivery of ceremonies. "I have adult children of my own, - how would I wish them to be treated?" That sums up the person and his ethos.

Every one of his ceremonies is bespoke; he consults personally with each couple, thereby ensuring that the ceremony is their particular dream. He encourages input from family and friends, children too as ring bearers, page boys, flower girls and bridesmaids.

His ceremonies include various cheerful anecdotes about the island, explaining why it is such a very special place, and how the vitality and subtle energy it exudes makes your wedding so special.

A measure of his professionalism, he has available his own powerful Roland PA system, self powered so it can be used on a beach or in the countryside. That ensures all guests fully enjoy the ceremony and accompanying music.

While Hedley Paul's first language is English, he can arrange supporting speakers in various other languages.

Hedley Paul pays no endorsement fees or commissions for recommendations, so all recommendations are based on merit. Ask your wedding planner if Hedley Paul is not on the list of celebrants they provide.
